# R&D SERVICES

AUTENTICO MADE IN ITALY

Abbiamo scelto di produrre in Italia ed usare solo materiali italiani per i seguenti motivi:

- mantenere la tradizione e la conoscenza del prodotto per poter sviluppare prodotti in base alle esigenze dei nostri clienti.
- essere più rapidi nel servizio e nella personalizzazione dei capi a favore del cliente.
- avere un maggiore controllo della qualità per offrire un prodotto artigianale che duri nel tempo.
- dare lavoro e creare valore nel nostro paese.

We have chosen to produce in Italy and use only Italian materials for the following reasons:

- maintain the tradition and knowledge of the product development and production.
- be faster in the service and customization.
- have greater quality control to offer a handmade product that lasts over time.

COLLECTION

Giessegi Srl è una società fondata nel 1984 da Simone Fraccaro, ciclista professionista su strada e pista negli anni '70 e '80. L'azienda è oggi uno dei 5 principali produttori di abbigliamento ciclistico custom in Italia. Giessegi distribuisce i suoi prodotti oltre 30 paesi stranieri su tutti i continenti. L'obiettivo principale di GSG è quello di soddisfare le richieste dei clienti, adattando il servizio e i prodotti alle esigenze del mercato e alle nuove tendenze. L'azienda ha deciso di mantenere la produzione nel nord-est d'Italia, per avere un controllo diretto sulla filiera dei fornitori, sullo sviluppo del prodotto e sul processo di produzione. I clienti chiedono sempre più consegne rapide, flessibilità sulle quantità e una gamma di prodotti variegata; GSG è in grado di soddisfare queste richieste, perché è proprietaria e gestisce direttamente gli impianti di produzione e si trova in una regione con una lunga tradizione nel settore tessile ciclistico e motoristico.

Giessegi Srl is a company founded in 1984 by Simone Fraccaro, professional road and track rider in the 70s and 80s. The company is nowadays one of the 5 leading manufacturers of custom bike wear in Italy. Giessegi delivers its products to customers in 30 foreign countries, on all continents. Our main target is to satisfy our customers' requests, adapting our service and products to their market needs and new trends. We have decided to keep our production in the north east of Italy, to have direct control on the supply chain, product development and manufacturing process. Our customers are asking for fast deliveries, quantities flexibility and wide range of products; we can fulfil this requests because we own and manage our production plant and we are located in a region with a long tradition in the bike and sport textile industry.

since 1984

L'impronta agonistica del fondatore è ancor oggi ben presente dopo oltre 40 anni di attività; GSG, infatti, collabora e sponsorizza numerosi team professionistici sparsi in tutto il mondo. Ad ogni latitudine atleti, ciclisti della strada e della mtb, vestono, sviluppano e portano al successo i capi GSG. Dalle competizioni più importanti e impegnative nascono, quindi, le innovazioni che sono disponibili per ogni appassionato.

The competitive imprinting of the founder is still well-established today after 40 years of activity; GSG collaborates and supports many cycling professional teams around the world. At all latitudes pro athletes, of road cycling and mountain-biking, develop and lead to success GSG clothing. Innovations, that are available for any cycling enthusiast, are conceived through the most important and challenging races.

# 05571 AERO1

FABRIC: MAT 240  
SIZE: XXS-5XL

- Vantaggi:**
- Aerodinamica: cuciture ridotte per la massima aerodinamica
  - Vestibilità: Lycra da 240 gr morbida ed elastica, che garantisce anche la massima compressione muscolare senza stringere
  - Comfort: taglio vivo all'estremità della gamba per adattarsi ai muscoli dell'atleta
  - Sicurezza: il tessuto è approvato Oeko Tex Standard o garantito per la salute della pelle
  - Fondello Pulsar, sviluppato e testato con macchine per il rilevamento dei punti di pressione, per garantire il massimo sforzo

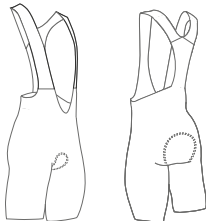

**Advantages:**  
Aerodynamics: reduced seams for maximum aerodynamics  
Fit: soft and elastic 240g Lycra, which also grants maximum muscle compression without tightening  
Comfort: Raw cut at the end of the leg to adapt to the athlete's muscles  
Safety: the fabric is Oeko Tex Standard approved or guaranteed for skin health  
Pulsar seat-pad, developed and tested with machines for detecting pressure points, to guarantee maximum comfort

## MITTS

Quanto estivo leggero con tessuto aerodinamico, elastico e traspirante. Nessun velcro sul polso, ma comoda chiusura con elastico. Palmo con spugne traspiranti e resistenti agli impatti, ma poco ingombranti. Applicazioni in silicone per maggior grip sul manubrio. Forma ergonomica.

Crafted for summer performance, these lightweight gloves feature an aerodynamic design using stretchy, breathable fabric. The elastic closure ensures a snug fit without sacrificing comfort. The palms are equipped with breathable, impact-resistant foam that remains compact, while silicone strips help to enhance grip on the handlebars. Designed with an ergonomic shape, these gloves provide excellent support and should be an essential part of your riding wardrobe over the warmer months.

# 12325

## TIME

Quanto aerodinamico. Tessuto rigato testato in galleria del vento. Nessun velcro sul polso, ma comoda chiusura con elastico. Applicazioni in silicone per maggior grip sul manubrio. Spugne anti shock leggere e traspiranti. Forma ergonomica.

These aerodynamically optimized gloves have been designed with speed in mind and saving you critical seconds when it matters most. The gloves feature wind tunnel-tested striped fabric, whilst an elastic closure on the wrist provides a secure yet comfortable fit. Silicone strips help provide enhanced grip on the handlebars, too. Meanwhile, lightweight, breathable anti-shock foams provide excellent impact protection without adding bulk. These gloves are perfect for warm-weather riding, when speed and time is of the essence.

# 12302

## LONG FINGERS

Quanti con dita lunghe. Lycra elastica e resistente sul dorso. Palmo con spugne a basso spessore e applicazioni in silicone per una migliore presa sul manubrio. Filo touch screen su pollice e indice per utilizzo smartphone. Polsino basso e senza velcro per una maggiore libertà di movimento.

These gloves are perfect for slightly cooler riding conditions, featuring the same great design of our summer gloves, but with full finger coverage. The backs of these full-finger gloves are made from a stretchy and durable Lycra, ensuring a comfortable fit. The palms use low-thickness foams and silicone, providing an excellent grip on the handlebars. With touch screen compatibility on the thumb and index finger, you can easily use your smartphone without removing these gloves. The low, Velcro-free cuff offers greater freedom of movement, too.

# 12245

## WINTER GLOVES

Quanto invernale in tessuto con membrana antivento ed antipioggia. Palmo con comode spugne traspiranti e leggere. Applicazioni in silicone per un miglior grip sul manubrio. Polsino in comodo tessuto elastico, felpato e traspirante. Filo touch screen su pollice e indice per utilizzo smartphone.

These gloves are an essential companion for winter riding. Crafted from fabric featuring a windproof and rainproof membrane, these gloves will help ensure your hands stay warm and dry in harsher weather conditions. The palms are designed with comfortable, breathable, and lightweight foams, complemented by silicone strips for superior grip on the handlebars. The cuffs are made from a comfortable elastic fleece that is breathable, yet snug. Lastly, the gloves also include a useful touch screen compatibility on the thumb and index finger.

## PULSAR

**Usage:** Road-MTB  
**Distance:** LONG  
**Density:** 140 kg/m<sup>3</sup>  
**Thickness:** 14 mm  
**Face fabric:** ECO BREEZE-TEX reciclado  
**Foams:** TRS4 de alta densidad, espuma EPF reciclada  
**Technologies:** S.A.T.- Tecnología de absorción de impactos  
**Features:** Eco sostenibilidad, ajuste ergonómico

Utilizzo: strada e fuori strada

Beneficio principale: lunghe ore in sella, fino ad oltre 8 h, adatto a chi ha bisogno di massimo comfort.

Densità: Spugne memory per una alta protezione agli impatti e adattarsi all'anatomia del ciclista.

Forma: sagomata ed anatomica per essere un tutt'uno con la sella evitando frizioni.

Tessuto esterno: elastico, morbido e traspirante per rapida asciugatura, comfort ed evitare abrasioni. Trattamento naturale rinfrescante per mantenere la pelle fresca anche senza l'uso di pomate.

Spugne interne: a celle aperte per permettere il passaggio d'aria e favorire la traspirazione.

Eco sostenibilità: tutti i materiali sono eco sostenibili al 100%.

Origine: prodotto interamente in Italia.

Usage: Road & Off-Road

Main benefit: long hours in the saddle, up to over 8 h, suitable for cyclists who need maximum comfort.

Density: Memory sponges for high impact protection and adapt to the cyclist's anatomy.

Shape: shaped and anatomical to avoid friction.

Outer fabric: elastic, soft and breathable for quick drying, comfort and avoid abrasion. Refreshing natural treatment to keep the skin fresh even without the use of ointments.

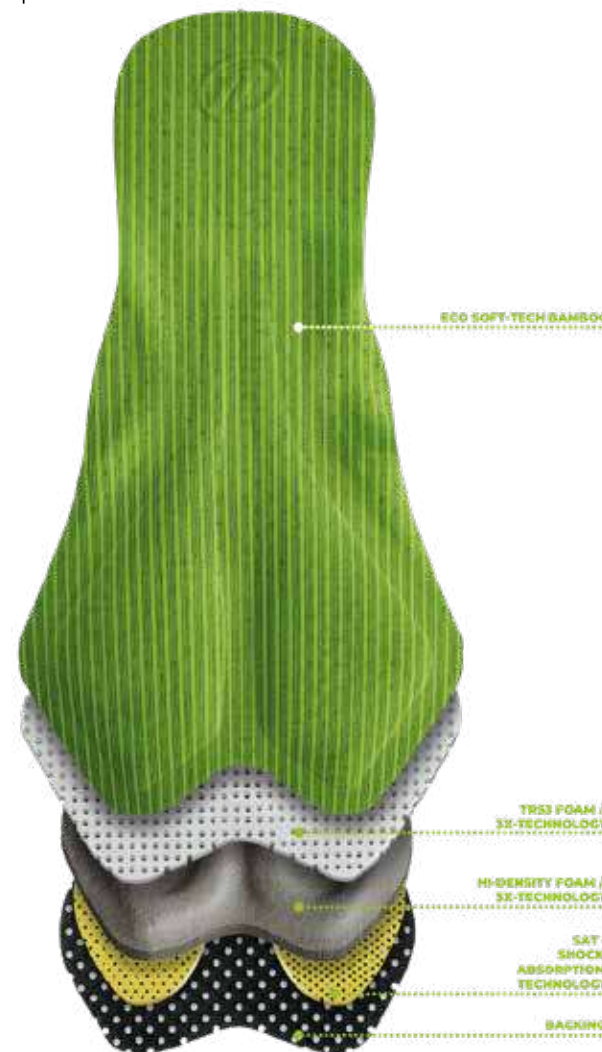

Internal sponges: open cells to allow the passage of air and promote perspiration.

Eco-sustainability: all materials are 100% eco-sustainable.

Origin: Made in Italy.

## ZENITH ECO SAT MAN

**Usage:** Road-MTB  
**Distance:** LONG  
**Density:** 140 kg/m<sup>3</sup>  
**Thickness:** 14 - 4 - 2 mm  
**Layers:** 4  
**Face fabric:** Eco Soft-Tech  
**Foams:** TRS3 Hi-Density  
**Technologies:** 3X Technology, LF L.S.A.T. Bacteriostatic  
**Features:** L.S.A.T. , 3X Technology

Utilizzo: strada e fuori strada

Beneficio principale: Medie distanze, fino ad oltre 6 h, adatto a chi ha bisogno di leggerezza, poco ingombro e libertà di movimento.

Densità: Spugne memory sulla parte delle ossa ischiatiche per attutire gli impatti.

Forma: angoli smussati per adattarsi meglio all'anatomia evitando arrossamenti e abrasioni.

Tessuto esterno: elastico, morbido e traspirante per rapida asciugatura.

Spugne interne: tridimensionali a densità graduata.

Eco sostenibilità: Tessuto esterno ricavato dal bamboo che ha elevate proprietà di traspirazione,

3 volte superiore agli altri tessuti, donando freschezza e mantenendo la pelle asciutta.

Origine: prodotto interamente in Italia.

Usage: Road & Off-Road

Main benefit: medium distances, up to 6 h, suitable for those who need lightness, little bulk and freedom of movement.

Density: Memory sponges on the part of the ischial bones to cushion impacts.

Shape: rounded corners to better adapt to the anatomy avoiding redness and abrasions.

Outer fabric: elastic, soft and breathable for quick drying.

Internal sponges: three-dimensional with graduated density.

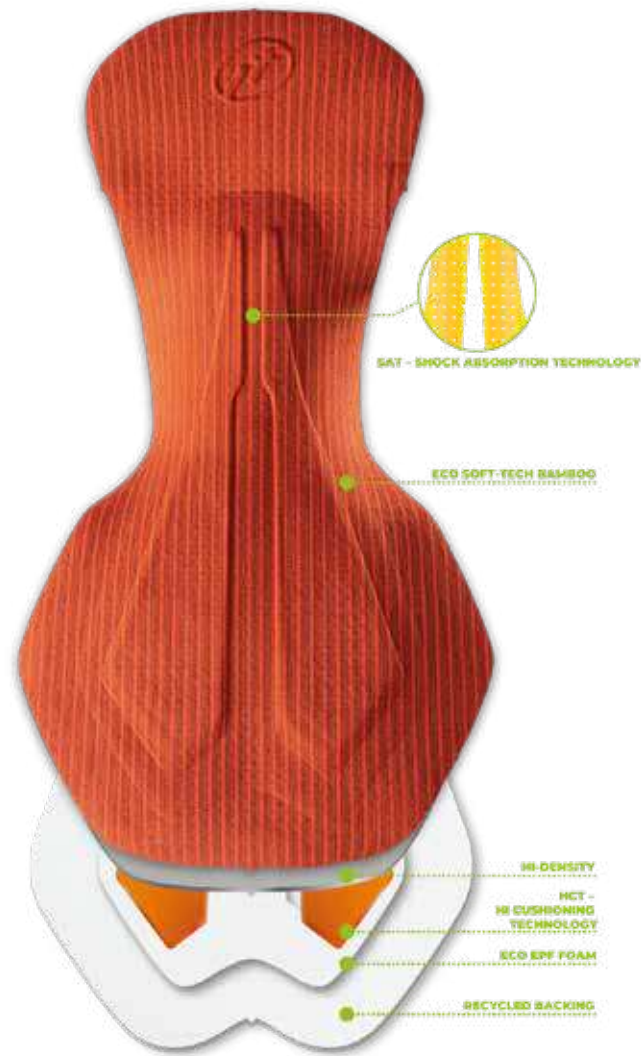

Eco-sustainability: Outer fabric made from bamboo that has high breathability properties,

3 times higher than other fabrics, giving freshness and keeping the skin dry.

Origin: produced entirely in Italy.

## ERGOTECH MAN

**Usage:** Road-MTB  
**Distance:** LONG  
**Density:** 140/180 kg/m<sup>3</sup>  
**Thickness:** 14 - 12 - 6 - 2mm  
**Layers:** 4  
**Face Fabric:** Eco Soft-Tech Bamboo  
**Foams:** THV Hi-Density  
**Technologies:** HCT Technology, EPF LF L.S.A.T. Bacteriostatic  
**Features:** Sani-Foam, B-Elastic

Utilizzo principalmente fuori strada

Beneficio principale: Lunghe distanze, fino ad oltre 8 h, adatto a chi ha un bacino piuttosto largo ed un peso superiore agli 80kg.

Densità: Spugne memory sulla parte delle ossa ischiatiche e sulla parte frontale per attutire gli impatti e adattarsi meglio all'anatomia.

Forma: pre-formata e sagomata per adattarsi meglio alla posizione in sella.

Tessuto esterno: tessuto con fibra di bamboo che ha elevate proprietà di traspirazione, 3 volte superiore agli altri tessuti, donando

freschezza e mantenendo la pelle asciutta.

Spugne interne: tridimensionali a densità graduata

Eco sostenibilità: Tessuto esterno ricavato dal bamboo, fibra naturale ed eco sostenibile.

Origine: prodotto interamente in Italia.

Mostly off-road use, gravel and mtb

Main benefit: Long distances, up to over 8 h, suitable for big people and a weight of more than 80kg. This is also a pad for beginners, who need maximum protection.

Density: Memory sponges on the part of the ischial bones and on the front to cushion impacts and better adapt to the anatomy.

Shape: shaped to better adapt to the position in the saddle.

Outer fabric: fabric with bamboo fiber that has high breathability properties, 3 times higher than other fabrics, giving freshness and keeping the skin dry.

Internal sponges: High density foams, open cells for a high perspiration.

Eco-sustainability: Outer fabric made from bamboo, a natural and eco-sustainable fiber

Origin: produced in Italy.

**Features:** L.S.A.T., 3X Technology

Utilizzo strada e fuori strada

Beneficio principale: medie, fino a 4 h, poco ingombrante, adatto a chi vuole un compromesso tra libertà di movimento e comfort.

Densità: Spugne memory sulla parte delle ossa ischiatiche.

Forma: canale centrale per togliere pressione dalla prostata e permettere un miglior flusso sanguigno.

Tessuto esterno: tessuto in poliestere microfibra, morbido e soffice.

Spugne interne: spugne tradizionali a diversi gradi di densità.

Origine: prodotto interamente in Italia.

Use: Road and off-road

Main benefit: medium, up to 4 h, space-saving, suitable for those who want a compromise between freedom of movement and comfort.

Density: Memory sponges on the part of the ischial bones.

Shape: central channel to remove pressure from the prostate and allow better blood flow.

Outer fabric: microfiber polyester fabric, soft and elastic.

Internal sponges: traditional sponges with different degrees of density.

Origin: produced entirely in Italy.

BETHA 3X ECO SAT WOMAN

**Usage:** Road-MTB  
**Distance:** LONG  
**Density:** 140 kg/m<sup>3</sup>  
**Thickness:** 14 - 12 - 6 - 2mm  
**Layers:** 4  
**Face fabric:**Eco Soft-Tech  
**Foams:** TRS3 Hi-Density  
**Technologies:** 3X Technology, LF L.S.A.T., Bacteriostatic  
**Features:** Sani-Foam, Light B-Elastic

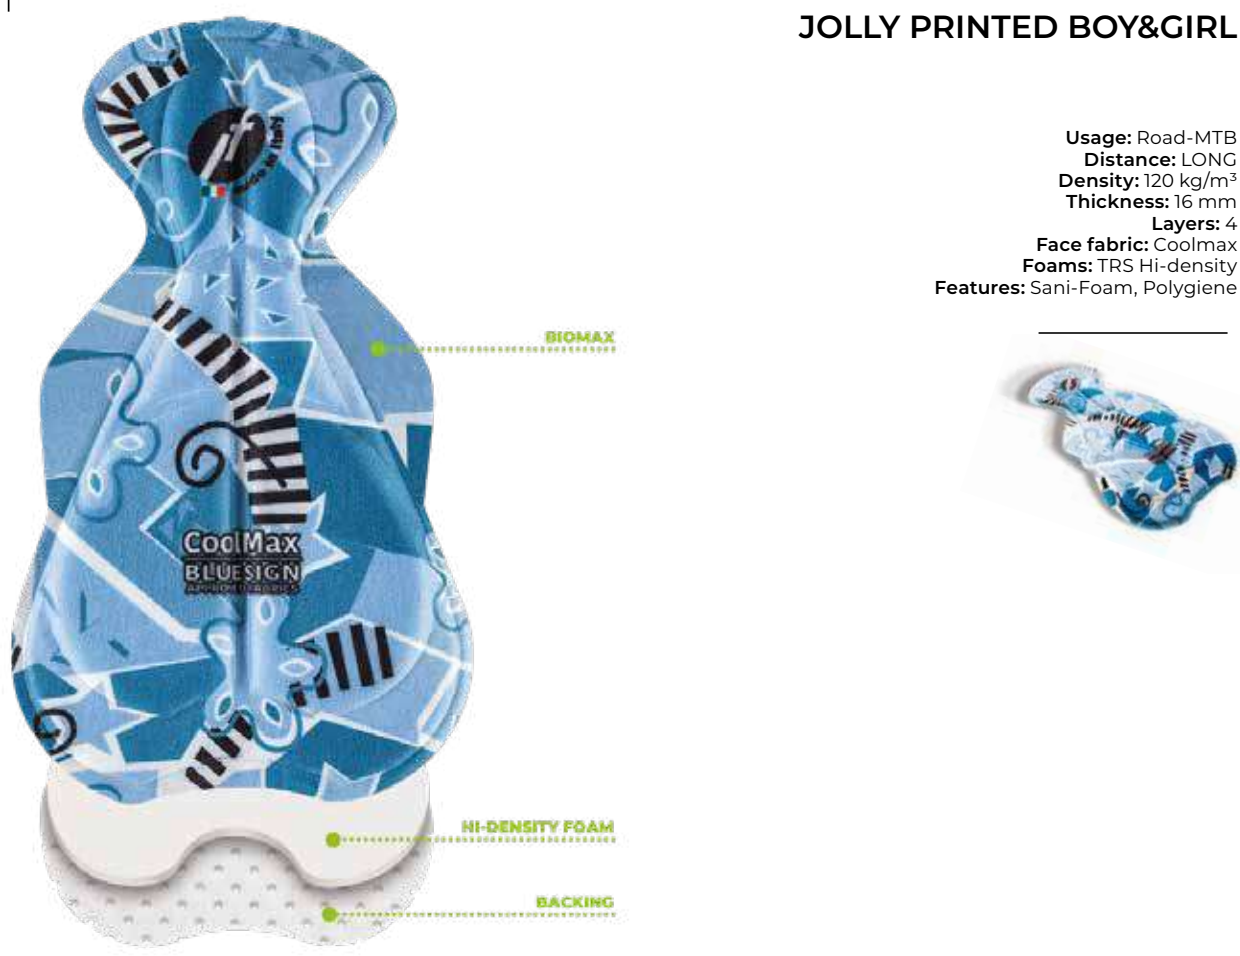

Utilizzo: strada e off-road  
Benefici principali: adattato all'anatomia femminile, quindi più piccolo di un fondello da uomo; è un fondello leggero e poco ingombrante, che però offre una ottima protezione.  
Densità: spugna con memoria per adattarsi all'anatomia del ciclista. È una spugna leggera e traspirante che assorbe gli urti molto più di un gel o di qualsiasi altra spugna.  
Tessuto esterno: : tessuto con fibra di bamboo che ha elevate proprietà di traspirazione, 3 volte superiore agli altri tessuti, donando freschezza e mantenendo la pelle asciutta.  
Eco sostenibilità: Tessuto esterno ricavato dal bamboo, fibra naturale ed eco sostenibile.  
Origine: prodotto interamente in Italia.

Use: road and off-road  
Main benefits: adapted to the female anatomy, therefore smaller than a men's chamois; It is a very light pad, which however offers excellent protection.  
Density: sponge with memory to adapt to the cyclist's anatomy. It is a lightweight and breathable sponge that absorbs shocks much more than a gel or any other sponge.  
Outer fabric: fabric with bamboo fiber that has high breathability properties, 3 times higher than other fabrics, giving freshness and keeping the skin dry.  
Eco-sustainability: Outer fabric made from bamboo, a natural and eco-sustainable fiber.  
Origin: produced entirely in Italy.

JOLLY PRINTED BOY&GIRL

**Usage:** Road-MTB  
**Distance:** LONG  
**Density:** 120 kg/m<sup>3</sup>  
**Thickness:** 16 mm  
**Layers:** 4  
**Face fabric:** Coolmax  
**Foams:** TRS Hi-density  
**Features:** Sani-Foam, Polygiene

Modello studiato per offrire un prodotto tecnico anche al ciclista più piccolo. I sostegni centrali hanno un'alta densità e garantiscono assorbimento degli impatti. Le zone periferiche hanno spessori e densità inferiori per esaltare al massimo l'elasticità e la morbidezza del tessuto. Il modello è presentato in 2 taglie: XS e S. Per entrambe le taglie c'è la possibilità di aggiungere inserti in SAT per un'ottimizzazione dell'assorbimento impatti.

Model featuring technical devices developed for young bikers. The high density inserts in the central part grant shock-absorption whilst the lateral areas have lower thickness and density foams to fully enhance the softness and the elasticity of the fabric. The model is presented in two sizes: XS and S. For both sizes there is the possibility of adding SAT inserts for an excellent shock absorption.

TRIATHLON Sat Man

**Usage:** Triathlon  
**Distance:** MEDIUM  
**Density:** 140 kg/m³  
**Layers:** 3  
**Face fabric:** Coolmax, B-Elastic  
**Foams:** Hi-density  
**Features:** Sani-Foam, Polygiene, Air-flow system

ZEPHIR Sat Woman

**Usage:** Triathlon  
**Distance:** LONG  
**Density:** 140 kg/m³  
**Layers:** 3  
**Face fabric:** Coolmax, B-Elastic  
**Foams:** Hi-density  
**Features:** Sani-Foam, Polygiene, Air-flow system

TRIATHLON Man

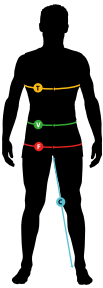

**Usage:** Triathlon  
**Distance:** MEDIUM  
**Density:** 40 kg/m³  
**Layers:** 1  
**Face fabric:** Microfiber

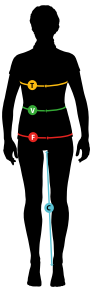

AURORA

**Usage:** Triathlon  
**Distance:** MEDIUM  
**Density:** 40 kg/m³  
**Layers:** 1  
**Face fabric:** Microfiber

Lavare il capo separatamente.

Lavare il capo da rovescio.

E' preferibile il lavaggio a mano in acqua tiepida (max. 30 °C).

In lavatrice meglio inserire il capo in un sacchetto di lavaggio.

Utilizzare detersivi neutri liquidi per capi delicati.

Non utilizzare candeggina e/o ammorbidenti.

Scegliere un programma per tessuti molto delicati.

Non centrifugare.

Non lasciare il capo in ammollo e risciacquarlo senza torcere e/o strofinare.

Per rimuovere l'acqua in eccesso dal capo spremere a mano delicatamente.

Non utilizzare asciugatrici a tamburo rotativo.

Lasciare asciugare il capo all'ombra, in posizione distesa o appeso, mai al sole.

**La manutenzione dei capi GSG è indicata nell'etichetta all'interno di ogni capo. Segui le indicazioni per avere sempre un capo all'altezza della tua performance.**

Wash separately.

Before washing, turn the garment inside out.

We recommend to hand-wash your garment (max 30° C).

Machine-wash - always using a wash bag.

Use mild liquid detergent only.

Do not use bleachers end/or softeners.

Choose a delicate washing-cycle.

Do not spin after wash.

Do not soak, wring or rub.

To remove excess water from your garment gently squeeze by hand.

Do not tumble dry.

Do not dry under the sun.

**Individual care instructions for GSG products are shown on the label of each garment. To maintain the optimum performance of your product, always follow these care instructions.**

**E' PREFERIBILE IL LAVAGGIO A MANO IN ACQUA TIEPIDA (MAX. 30 °C).**

**WE RECOMMEND TO HAND-WASH YOUR GARMENT (MAX 30° C).**

**NON UTILIZZARE CANDEGGINA E/O AMMORBIDENTI.**

**DO NOT USE BLEACHERS END/OR SOFTENERS.**

**NON STIRARE. DO NOT IRON.**

**NON CENTRIFUGARE. DO NOT SPIN AFTER WASH.**

**1. Scegli la linea che preferisci**

Scegli la linea che più soddisfa le esigenze della tua squadra.

**2. Richiedi il kit taglie**

Prima di effettuare l'ordine, richiedi in azienda o al nostro agente di zona il kit taglie per la prova dei capi.

**3. Effettua l'ordine**

Raccogli le taglie e le quantità necessarie alla tua squadra.

I minimi sono di 10 pezzi per la parte alta e 10 pezzi per la bassa.

I loghi devono essere in formato vettoriale.

Per qualsiasi dubbio contatta l'azienda o il nostro agente di zona.

Invia ordine e loghi all'agente.

**4. Approvazione bozzetto**

Riceverai il bozzetto in base alle specifiche grafiche inviate.

Le eventuali fasi di modifica successive non sono da intendersi come un cambio totale di design.

Verranno gestite fino a 3 fasi di modifica, dalla quarta saranno a pagamento.

Il bozzetto deve necessariamente essere approvato in forma scritta. Un ritardo nell'approvazione può influire sui tempi di consegna.

**5. Tempi di consegna**

Riceverai la conferma d'ordine con la quale ti comunicheremo la data di spedizione prevista per il tuo ordine.

I tempi di consegna avvengono in media dalle 4 alle 5 settimane ma possono variare a seconda del periodo di produzione.

Il conteggio decorre dal momento in cui saranno inviati ordine, acconto e specifiche grafiche.

**1. Choose your favorite collection**

Choose the collection that best meets your team's needs.

**2. Request the right size kit**

Before placing your order, you can ask us or contact our local agent to try the garments for size.

**3. Send the order**

Collect sizes and quantities for your team.

The minimum order is for 10 items that are tops and 10 items that are bottoms.

Send the order and logos to the agent.

The logos must be in the format of vector graphics.

If you have any questions, please contact the company or the local agent.

**4. Layout approval**

You will receive the layout according to the graphics and elements you sent us.

The following amendments shall not be considered as a total change of layout.

Modifications up to three in number will be accepted. From the fourth change onwards we will start to charge for amendments.

The layout must be approved, by you, in writing. A delay in the approval may cause a delay in delivery.

**5. Delivery Time**

You will receive your order confirmation in which we will notify you of the foreseen shipping date for your order.

The delivery time is between 4 and 5 weeks, but can vary depending on the period of production.

The delivery time is calculated from the moment in which you send the order, deposit and graphic elements.
